Rico Hualda Lascano

Born: 1958, Philippines
Lives: Manila, Philippines

A Filipino artist who has been quietly but steadfastly shoring up a well deserved recognition, Lascano has always been drawn to Oriental themes. Previous bodies of work, such as The Pondering and the Stream of Consciousness series are all subdued chromatic works all alluding to the stillness of water, intuiting silence by the merest whisper of brush-stroke. When seen against the brutishness of so much agitated gestural abstraction, Lascano's works are an oasis to the spirit... a relief from the hectic execution and violation of space. – Cid Reyes
